

## Seminar program: HS 2019

### Joint Seminars

Institute of Physiology & Institute of Veterinary Physiology

University Zurich-Irchel, Institute of Physiology, seminar room Y23K52, **12:00 – 12:45 Uhr**

- |            |  |
|------------|--|
| 24.09.2019 | <b>Dr. Chia-wei Lin</b><br>ETH Zurich / Functional Genomics Center Zurich<br>(organized by Institute of Physiology, University of Zurich)<br><b>Recent advances in mass spectrometry-based glycoproteomics and glycomics in complex biological samples</b>                                   |
| 01.10.2019 | <b>no seminar</b>  |
| 08.10.2019 | <b>Dr. Stellor Nlandu Khodo</b><br>Institute of Physiology, University of Zurich<br><b>Epithelial TGF-<math>\beta</math> and b-catenin signaling in mouse models of Chronic Kidney Disease</b>   |
| 15.10.2019 | <b>Malte Timo Kölling</b><br>Institute of Physiology, University of Zurich<br><b>Circular RNAs: Promising biomarkers for kidney diseases</b>   |
| 22.10.2019 | <b>Dr. Philip A. Knobel</b><br>Institute of Physiology, University of Zurich<br><b>The extracellular metalloproteinase ADAM17 acts as a immune checkpoint regulator</b>  |
| 29.10.2019 | <b>Prof. Dr. Christoph Schneider</b><br>Institute of Physiology, University of Zurich<br><b>Tissue – immune cross-talk in gut and lung physiology</b>  |
| 05.11.2019 | <b>Dr. Asya Makhro</b><br>Institute of Veterinary Physiology, University of Zurich<br><b>High altitude-induced changes in red blood cells of healthy young men</b>   |
| 12.11.2019 | <b>Prof. Dr. med. Stefan W. Schneider</b><br>Direktor der Klinik und Poliklinik für Dermatologie und Venerologie<br>Universitätsklinikum Hamburg-Eppendorf<br>(organized by Institute of Physiology, University of Zurich)<br><b>Tumor and coagulation: basics and clinical consequences</b> |
| 19.11.2019 | <b>PD Dr. Lara Ogunshola</b><br>Institute of Veterinary Physiology, University of Zurich<br><b>Thinking beyond neuron-focused strategies:<br/>Protecting blood-brain barrier function to combat brain disease</b>  |

**University of  
Zurich<sup>UZH</sup>**

- 26.11.2019      **Dr. Christina Boyle**  
Institute of Veterinary Physiology, University of Zurich  
**Investigating how maternal obesity affects the long-term health of the mother**
- 03.12.2019      **Dr. Alessandro Luciani**  
Institute of Physiology, University of Zurich  
**Eat yourself to live: Role of Autophagy in health and in disease**
- 10.12.2019      **Dr. Britta Bausch**  
Institute of Physiology, University of Zurich  
**Dependence of intracranial pressure on pressures in other body compartments**
- 17.12.2019      **Prof. Dr. Carsten Wagner**  
Institute of Physiology, University of Zurich  
**High phosphate intake – is it toxic?**
